

Project Manager

**Do you have what it takes to join the elite security testing team?
If you answered “Yes” we’d love to put you to the test!**

Canary Trap is always on the lookout for professionals to join our growing team. We are seeking a highly talented and motivated Project Manager with established professional experience to join Canary Trap’s Project Management team.

Qualified candidates must possess the required certifications, expertise and experience along with interpersonal skills necessary for success.

Job Responsibilities & Description:

- Develop and manage project plans to deliver Canary Trap’s products on schedule and as per requirements outlined by Project Management (PM).
- Closely manage project scope and expectations of stakeholders in Service Delivery.
- Identify internal stakeholders impacted by the projects and engage them throughout the project.
- Develop and manage project plans.
- Develop communication plans including status reporting frequency, format and approach.
- Transparently communicate project status to internal stakeholders either through critical path or milestone and deliverable reporting.
- Manage and report project risks to relevant stakeholders.
- Conduct lessons learned reviews at project close, create a recommendations report identifying successful and unsuccessful project practices.
- Facilitate team meetings effectively and efficiently.
- Liaise with project stakeholders on an ongoing basis.
- Resolve and/or escalate issues in a timely fashion.
- Inspire team members to attain goals and strive for excellence.
- Delegate tasks and responsibilities to appropriate personnel.
- Experience defining technical project scope and objectives.
- 3-5 years experience developing detailed work plans, schedules, project estimates, resource plans, and status reports.
- 3-5 years experience conducting project meetings, preferably within engineering teams.
- Strong oral and written skills are mandatory.

- PMP Certification (or international equivalent) preferred
