

- Security Awareness Training -

Increasing staff awareness and vigilance toward security threats

SERVICE OVERVIEW

Security Awareness Training (SAT) teaches employees about cyber-security, best practices, and even regulatory compliance.

Comprehensive SAT should provide employees with practical knowledge on how to spot the most common security threats.

Canary Trap has created a fully managed, customizable, and interactive SAT program that is cloud-based. We aim to positively engage employees with content that is informative, enjoyable and relevant.

Engage Canary Trap Specialists

Complete our Scoping Questionnaire online at www.CanaryTrap.com or contact us directly by telephone or email. We look forward to understanding your unique security requirements and key business objectives.

Report Card

A Report Card will be delivered that clearly shows how employees are responding to Security Awareness Training. Individual employees who are shown to be struggling can be engaged directly with additional assistance and support.

The Canary Trap Approach

- ✓ Step 1: Scope the Engagement
- ✓ Step 2: Project Kick-off
- ✓ Step 3: Roll out
- ✓ Step 4: Feedback & Evolution
