

## Catching Vulnerabilities and Trapping Exploits

Canary Trap's elite team of security experts come armed with the tools, experience and credentials to help improve your organization's security resiliency and cyber risk posture.

# INSTRUCTOR-LED SECURITY AWARENESS TRAINING

Increasing security resiliency through education.

## SERVICE OVERVIEW

You're only as strong as your weakest link. Security Awareness Training (SAT) aims to teach students about cybersecurity, IT best practices and even regulatory compliance. The 2021 Verizon Data Breach Investigations Report revealed that *82% of breaches involved the human element.*

Canary Trap has developed a high-impact, instructor-led SAT program for directors, officers and employees. We're able to customize classes to include phishing simulations, IT and security best practices, data protection and compliance training. Canary Trap's lead instructor is a member of the Forbes Technology Council who is a recognized expert in North America and media personality. We aim to positively engage the audience with content that's informative, topical, enjoyable and relevant, all within an interactive and dynamic virtual setting that allows for Q&A.

Canary Trap's SAT is designed to offer students practical insights that can be applied in their professional and personal lives. When educated, students should be able to report on any potential security threats, adhere to company IT policies, best practices and any applicable data privacy and compliance regulations (e.g., GDPR, PCI DSS, HIPAA, etc.)

Through leveraging Canary Trap's instructor-led SAT, customers can safeguard their employees from being victims of cyber fraud and identity theft, significantly reducing the risk of a security breach, and safeguard their organization's reputation and better secure their environment.

### Engage Canary Trap

Complete our **Scoping Questionnaire** at [www.canarytrap.com](http://www.canarytrap.com) or **Contact Us** directly by telephone or email.

### Report Card

Canary Trap will deliver a **Report Card** that highlights how students performed when tested.

### The Canary Trap Approach

- ✓ **Step 1:** Define
- ✓ **Step 2:** Schedule
- ✓ **Step 3:** Educate
- ✓ **Step 4:** Test & Report
- ✓ **Step 5:** Repeat
